***Reports of the seminars of P.M.T
inside Afghanistan during the
Month of Aug, 1992***

In the work plan we had prepared for the period of May, 1992 to April 1993, Education Department was supposed to give two seminars for 80 government teachers inside Afghanistan during Aug, 1992. Those two seminars of 15 days duration were the continuation of the activities started in June, 1992 in Jalalabad Nangarhar province and in July, 1992 in Kunar province inside Afghanistan reported earlier.

To implement the plan the department of education sent Peshawar P.M.T to Jalalabad the capital of Nangarhar province and Bajaur P.M.T to Asadabad the capital of Kunar province. Bajaur P.M.T after discussing the matter with the director of Education of Kunar province were able to get the list of the recruited teachers for the seminar. The starting date for the seminar was fixed to be Aug 11, 1992 in one of the schools in the capital. Peshawar P.M.T during the meeting with the director of education of Nangarhar province also got the list of the teachers who would participate in the seminar. The date for starting the seminar was fixed Aug 15, 1992 in Alai Girls' school in Jalalabad.

On the assigned date both teams (Peshawar P.M.T, Bajaur P.M.T) started the seminars with the recitation of verses from holi-Quran. The rule and regulation of the seminar were explained to the participants by the chairmen of the seminars (M. Aman & Abdul Haq). As usual a pre-seminar evaluation tests were given to the participating teachers to know about their standards to arrange the teaching procedure accordingly. Based upon the tests' results the teachers were grouped into A and B each group 20 teachers.

When the groupings were done the teaching materials and teaching aid materials provided by the department of education needed during the seminars were distributed to the teachers.

The timetables prepared for each seminar were given to the trainees to be followed in which the number of periods for each subjects were assigned. Everyday there were 6 periods of teaching and one tea break after first three periods of teaching. It is worth mentioning that each teaching period was 40 minutes, and each seminar had 90 periods of teaching to cover all the materials of the seminar.

In the seminar of Jalalabad by Peshawar P.M.T the following teacher trainers were teaching the related subjects:

1. Haji Sadullah was teaching General Methodology and Teaching Aid Materials.
2. M. Sadiq was teaching Child Psychology and the teaching Methods of Islamiat.
3. G. Sadiq was teaching Educational Evaluation and the teaching methods of Mathematics.
4. M. Aman was teaching Educational Psychology and the teaching Methods of Pushto language.

In the seminar of Asadabad in Kunar province by Bajaur P.M.T the following teacher trainers of Bajaur P.M.T were teaching the subjects of the seminar:

1. Enayatullah was teaching Child Psychology and the teaching Method of Pushto language.
2. Abdul Haq was teaching the Teaching Aid Materials in teaching and the teaching methods of Mathematics.
3. Gulam Ali was teaching testing and Education evaluation
4. Hadayatullah was teaching General Methodology and the teaching methods of Islamiat.
5. Sayed Ahmad was teaching Educational Psychology.

In both seminars during the first 5 days some important and basic information was presented to the classes. During the second 5 days the trainers were giving model lessons applying the principles of professional subjects in teaching different subjects taught in the primary schools.

In those model lessons all the theoretical parts of the seminar were applied to convince the trainees about the practicality of the professional subjects in teaching. Also during those practical or model lessons the trainers prepared the teaching aid materials for each lesson and appropriate to different subjects. The use of the teaching aid materials was shown to the trainees during the mentioned periods of model lessons. There was time for discussion and questions by the trainees about the model lessons by the trainers.

The purposes of those model lessons were:

1. To convince the trainees about the practicality of the materials they were taught during the first 5 days.
2. To make the trainees familiar with the best method of teaching in each subject of the primary schools.
3. To show to the trainees how to prepare and how to use the teaching aid materials suitable to each subject.
4. To encourage the trainees to participate in the classroom discussion and pinpoint the strong and weak points of the model lessons.

When the theoretical side of the seminar was completed and applied by the trainers while giving model lessons the final stage of the seminars started. During this stage each trainee had to give a model lesson to the related class under the guidance of the trainers. The trainees giving model lessons were using the information gained during the first 5 days and during the model lessons given by the trainers.

The aims of these model lessons by the trainees were:

1. To become sure that the participants understood the materials of the seminar.
2. To know whether the trainees were able to use the training or not.
3. To encourage the trainees to use the best method of teaching (student-Centered) in their schools.
4. To help the trainees to prepare the teaching aid materials locally and use them properly in the classroom.
5. Group participation in the evaluation of each lesson by the trainees.

During the model lessons by the trainees enough teaching aid materials were prepared by them under the guidance of the P.M.T trainers. After each model lesson there was enough time for discussion during which the trainees under the direction of the trainers were evaluating each other.

Toward the end of the seminar the trainee teachers had the chance of acquiring:

1. The professional knowledge.
2. The application of the professional knowledge where the trainers were giving model lessons.
3. The experience of giving model lesson while under observation by others.
4. Courage in group discussion about the strong and weak points of the lessons given.

At the end of the seminars a post-seminar evaluation tests were given in both places. From the results of the final evaluation, the views of the graduates, our own observation and monitoring we can say that the seminars succeeded to achieve the objective of SAB in training Afghan teachers.

The teachers according to our findings inside Afghanistan due to the continuous war are very weak and need intensive training on the spot through seminars and later on through practical work with them in the classrooms. The teaching aid materials are unknown for them which were taught to them and were able to prepare a set for each subject.

The responsible authorities in the provinces were cooperating and interested in the training of their teachers by SAB department of education.

The list of the participants of the seminars, materials distribution lists, the time table of the seminars, the results of the evaluation, and the lists of the allowances are annexed at the end of the report, first related to Peshawar-P.M.T and second related to Bajaur-P.M.T.
